Mangalore,
30-10-2001.

From:

Arthur J. Pereira,
Karanbar,
Bajpe Post-574 142,
Mangalore.

To:

The Commissioner,
Mangalore Maha Nagara Palike,
Lalbagh, Mangalore.

Sir,

Sub: Regarding the Garbage dumping at Pachanady
Village of Mangalore Taluk.

-0-0-0-

The Mangalore Maha Nagara Palike has been dumping all its Garbage at Pachanady Village at a point which is almost 80 to 100 mts. above the mean sea level. Airports Authority of India has a plan to construct the Terminal tower and 2nd runway at the Mangalore Airport. The proposed construction would extend upto Malavoor Padav, with in 3 to 4 Km's from the Garbage dumping point. The Garbage attracts lot of high flying birds which are going to be a threat for the safe operation of Aircrafts operating from the proposed instrument runway.

To have the safe operations of the Aircrafts from the proposed sophisticated instrument runway at the Mangalore Airport, it is necessary that the Airports Authority of India and the Maha Nagara Palike would take steps to eliminate the Garbage dump from the existing point. I shall be writing to the Airports Authority of India too in this regard.

Please let me know about the steps taken in this regard.

Thanking you,

Yours faithfully,

(ARTHUR J. PEREIRA).
